Expertise

FULL Stack	<div></div>
developer	<div></div>
AI with python	<div></div>
Data analytics	<div></div>
Data base design	<div></div>

Objective

"To leverage my skills in full-stack web development, artificial intelligence, and team leadership in a dynamic IT environment, contributing to impactful projects while driving my professional growth.

skills

- Technical Skills
- Programming Languages: Python, C++, HTML, CSS, JavaScript, PHP
- Frameworks: ReactJS
- Tools: Power BI, Database Design, Data Analytics

Soft Skills

- Problem Solving, Team Leadership, Self-Learning

PROJECTS

- Billing Web Application
- Developed a user-friendly billing application using HTML, CSS, and JavaScript. The system includes automated calculations and forms to streamline billing processes.
- Personal Assistant AI
- Created a personal assistant using Python, designed to handle scheduling, reminders, and data fetching tasks, enhancing productivity and time management.
- E-commerce Website
- Built a small-scale e-commerce platform with features for product listings, user accounts, and secure transactions, contributing to improved user experience and security.

courses

- **AI using Power BI - Completed with an A+, Edify Institute**
- **Data Analytics using Power BI - Completed with an A+, Edify Institute**
- **Python and C++ - Chirag Academy**

Achievements

- Certificate of Excellence in Athletics, 2023
- Led the volleyball and throwball teams to victory in annual sports competitions, 2022-2023
- Recognized in school and college-level competitions in kabaddi, volleyball, and throwball
